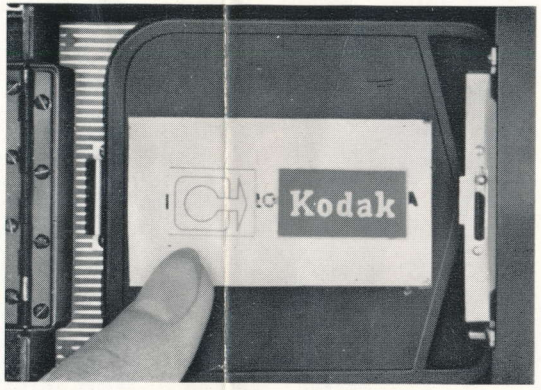
Cinemax-8

CINEMAX C-301 Super 8 Cine Camera

How easy to handle! Just insert Kodak Super film and aim at your object!

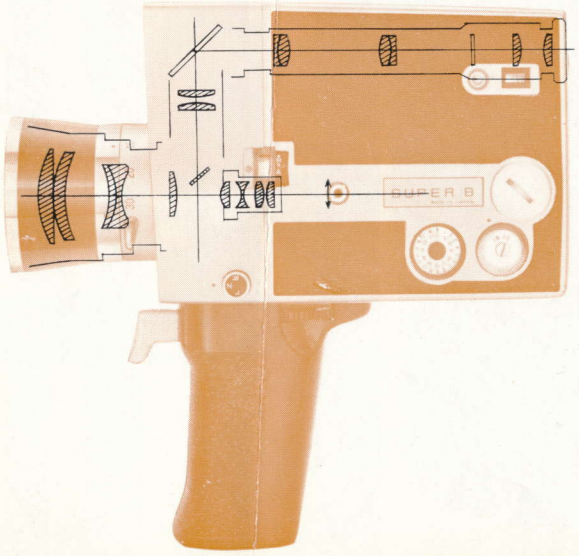
Insert Kodak Super 8 film cartridge into the camera.



Depress rear of cartridge and close cover.

Then squeeze trigger aiming your best object.

How Simple to Shoot! Forget to fix distance! Neglect to consider exposure!



This camera has three special features, i, e, ① fixed focus zoom lens, ② CDS-fully automatic exposure-meter and ③ through-the-lens exposure-system.

Only aim your object, then it is not necessary to fix the distance of each subject. The new CDS "Through-The-Lens" also called "Behind-The-Lens" system (using a mercury battery) is the ultimate electric eye. The sensitive CDS exposure setting cell is located in the lens system, "Sees" exactly the same light as the lens sees and automatically sets exposure accordingly.

SUMMERS CAMERA EXCHANGE, INC.
714 - 14TH STREET, N. W.
WASHINGTON 5, D. C.
